

Dear Tom,

The introduction of worldwide athlete identification – SPIN (Squash Player Identification Numbers), will be very beneficial to the sport and the players themselves as we move forward in a manner adopted by forward-thinking sports generally.

It is new to you, it is new to us, and similarly new to the players. There is a great deal of work being done by Lorraine and Jazz to iron out any wrinkles in the system, to ensure that questions are answered, and that current juniors are reminded of the need to have an active SPIN by the end of January if they wish to retain ranking points earned and appear in the February World Junior Circuit ranking list.

One area of follow up is to stress the need to actually activate a SPIN by paying the once-for-life sum of GBP10 – the second stage of the registration process. Entries / representation will not be possible without doing so.

We have listed players from your country who are on the original ESF database and those who have recently registered **but not activated** their SPIN. It is a rough list so there could be errors and duplications but as SPIN is needed for participation in all WSF, Regional, World Junior Circuit and an increasing number of national events whatever the age of the players we would encourage you to let them know that they need to activate their registration.

They can do so at
